EDUCATION

Bachelor of Technology, Computer Science — Jul 18 – May 22
SRM Institute of Science & Technology — **CGPA: 9/10**

SKILLS

Research	User Interviews, Journey Mapping, Heuristic Evaluation, Desk Research, A/B Testing
Design	Information Architecture, Design Systems, Wireframing & Prototyping
Tools	Figma, FigJam, Figma Make, Jitter, Framer, Notion, Maze, Mixpanel, Claude Code

EXPERIENCE

Independent Product Designer
Jan 25 – Apr 26

- **Wildflower Health**: Led a fractional UX audit and redesign of a white-labeled B2C pregnancy/wellness app (50k users) in 6 weeks, streamlining navigation and hierarchy with the Senior PM, Director of Content, and VP Marketing → projected to lift MAU from 28% to 50% and boost task completion by up to 50%.
- **Gusto**: Redesigned the signup funnel for a 200k-reach site with a password-free lead form and phased A/B testing alongside the Product Manager and Head of Web Marketing → drove a 15% lift in lead conversion and 25% increase in account creations.
- **Therabody**: Used RICE-prioritized, CMS-driven A/B testing to restructure product detail pages for 400k monthly visitors → increased PDP conversion by up to 22% and revenue per visitor by over 30%, with minimal engineering lift.

Contractual Product Designer
Mar 24 – Sep 24

- Designing of Block **Design System** 3.0 — built component variants, design tokens, and dark-mode architecture adopted across multiple product teams, cutting design-to-build time.
- Established a system update/release channel and contributed documentation on component usage and best practices → **reduced recurring design questions** from product teams.
- Designed **Builder Tracker**, an internal dashboard and kanban tool → brought visibility and structure to a high-complexity, cross-team workflow.
- Designed **Builder University**, an internal e-learning platform → reached 100% automation in onboarding for external experts and internal employees.
- Developed **Builder Partners Hub**, a B2B platform for 50+ affiliates to track earnings, register leads, and manage commissions and billing in one place.

Product Designer
Oct 23 – Dec 23

- **Launched Tasks, Goals, Activity Feed and Achievements features** with responsive design gamifying the product and significantly increasing product stickiness.
- Designed for **ProPilot AI Mentor** from 0 to 1 to solve for scalability in human mentorship for Preplaced as a business.
- Revamped the design language for AI Mentor that drove a **20% increase in onboarding conversions.**
- **D**esigned the **Mentee Dashboard** in Preplaced's shift to an open marketplace, launching features like My Sessions and Subscriptions, contributing to **3x revenue growth in 3 months** and **reducing operational overhead by 70%.**

Product Design Intern
Jun 23 – Aug 23

- Redesigned mobile wellness tracker and onboarding flows → **reduced drop-off by 22%** and **increased daily engagement by 18%.**
- Ran usability tests and iterated on findings → **achieved 90%** task success rate.
