EXPERIENCE

Independent Product Designer

Jan 25 – Apr 26

- **Wildflower Health**: Led an end-to-end UX audit and redesign of a white-labelled B2C pregnancy and wellness app used by 50K users, restructuring navigation, information hierarchy and key journeys with the Senior PM, Director of Content and VP Marketing.
- Gusto: Redesigned the signup journey for a site reaching 200K users, simplifying lead capture and defining phased A/B tests with the Product Manager and Head of Web Marketing → +15% lead conversion and +25% account creation.
- **Therabody**: Used RICE-prioritized, CMS-driven A/B testing to restructure product detail pages for 400k monthly visitors → increased PDP conversion by up to 22% and revenue per visitor by over 30%, with minimal engineering lift.

Builder.ai: AI-Powered App Building Platform

Contractual Product Designer Mar 24 – Sep 24

- Contributed to Block Design System 3.0, creating scalable component variants, design tokens and dark-mode patterns adopted across multiple product teams.
- Designed **Builder Tracker**, an internal dashboard and kanban tool → brought visibility and structure to a high-complexity, cross-team workflow.
- Designed **Builder University**, an internal e-learning platform → reached 100% automation in onboarding for external experts and internal employees.

Preplaced: Mentorship Platform

Product Designer Oct 23 – Dec 23

- Led the 0→1 product design of ProPilot AI Mentor, translating a scalability challenge in human mentorship into an AI-assisted product experience.
- Revamped the design language for AI Mentor that drove a **20% increase in onboarding conversions.**
- Designed the **Mentee Dashboard** in Preplaced's shift to an open marketplace, launching features like My Sessions and Subscriptions, contributing to **3x revenue growth in 3 months** and **reducing operational overhead by 70%.**

Elda Health: Women's Healthcare Platform

Product Design Intern Jun 23 – Aug 23

- Redesigned mobile wellness tracker and onboarding flows → **reduced drop-off by 22%** and **increased daily engagement by 18%.**
- Ran usability tests and iterated on findings → **achieved 90%** task success rate.
